

ROHAN KORIYA

Software Developer

☎ +91-9167329978 ✉ koriyarohan123@gmail.com 🐙 github.com/RohanKoriya 🔗 linkedin.com/in/rohankoriya

Professional Summary

Full-Stack Developer focused on the MERN stack, with hands-on experience building AI-powered and real-time web applications. Developed Ranklytics, an SEO analytics platform using Gemini AI and Browserbase, and ChatSphere, a real-time chat application using Socket.IO. Seeking Software Developer or Full-Stack Developer opportunities.

Education

Bachelor of Science in Information Technology

May 2023 – April 2026

Mumbai University, Mumbai, India

- CGPA: 8.09/10
- Relevant Coursework: Data Structures and Algorithms, Web Development, Object-Oriented Programming, Software Engineering

Projects

Ranklytics – AI-Powered SEO Analytics Platform | MERN, Gemini AI, Browserbase | [Live](#) May 2026 – Jun 2026

- Engineered a full-stack AI-powered SEO analytics platform analyzing **20+ SEO factors** including metadata, headings, links, images, and performance metrics.
- Integrated **Browserbase** to scrape website data and automate technical SEO audits across public websites.
- Used **Gemini AI** to generate SEO insights, issue detection, and actionable optimization recommendations.
- Developed keyword rank tracking with position monitoring, competitor analysis, and historical ranking reports.
- Implemented JWT authentication, **PDF report exports**, protected routes, and a responsive SaaS dashboard.

LeadFlow – CRM Platform | MERN, TypeScript | [Live](#)

April 2026 – May 2026

- Developed a full-stack CRM dashboard in TypeScript tracking customer leads from multiple sources including websites, Instagram, and referrals.
- Implemented **role-based access control** using JWT authentication and bcrypt.
- Developed lead management system with search, filter, sort, and server-side pagination with combinable advanced filters for optimized query performance.
- Designed REST APIs with Express, Mongoose, validation middleware, and centralized error handling.
- Containerized the application with **Docker** and added CSV export for reporting.

ChatSphere – Real-Time Chat Application | MERN, Socket.IO | [Live](#)

Dec 2025 – Jan 2026

- Built a full-stack real-time chat platform supporting persistent message history and multi-user concurrent sessions.
- Implemented JWT authentication with HTTP-only cookies preventing XSS attacks and ensuring secure session management.
- Integrated **Socket.IO** for real-time messaging with concurrent user support and **presence tracking**.
- Designed features including image sharing, profile updates, and persistent login functionality.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, Python, Java, C++
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, Socket.IO, REST API Design, JWT
- **Databases:** MongoDB, Mongoose, MySQL
- **Tools & Platforms:** Git, GitHub, Docker, Postman, Vercel, Render
